

SPECIAL ENERGY

ORGANIC NITROGEN FERTILISER
Liquid hydrolyzed animal epithelium with

PERMITTED IN ORGANIC FARMING

BIO-AGRONOMIC PROPERTIES

SPECIAL ENERGY is an organic, nitrogen-enriched fertiliser with a high percentage of laevorotatory amino acids and peptides, which are the building blocks of vegetable proteins.

FINAL RESULT

- Stimulation of natural crop metabolism, with resulting increase in production.
- Improved formation of active roots.
- Support for plants undergoing abiotic stress (drought, frost, hail, etc.).

Repeat treatment whenever situations are created in which the plant should be stimulated, and photosynthesis and production should be increased.

DOSES AND METHOD OF USE

Application on all leaf and root cultures:

Foliar dosage: 3-5 kg/ha

Radical Dosage: 20-30 kg/ha

Repeat treatment whenever situations are created in which the plant should be stimulated, and photosynthesis and production should be increased.

APPLICATIONS • For at least 21 days after application, it is forbidden to feed farmed animals with herbaceous plants taken through grazing or administered after harvesting.

WARNINGS • *The product is miscible with most pesticides other than copper-containing products. However, it is necessary, in any case, to perform a test before application. The manufacturer is not liable for damage caused by improper use of the product.*

COMPOSITION

Total nitrogen (N)	9%
Organic nitrogen (N)	9%
Organic carbon (C) of biological origin	24.5%
Raw materials: Liquid hydrolysed animal epithelium with maximum concentration in mg/Kg of dry matter of CrVI=0.	

PACKAGE

5 – 10 – 25 – 250 – 1200 kg

N° Reg. SIAN
